

Environment Policy

Maxpak is committed to continually improving products and service in the context of socially responsible environmental behaviour and sustainability. Our objective is to minimise environmental impact whilst maintaining the heritage of our high quality standards that have existed since 1979.

Environmental Responsibility is an integral part of our operations and to this end we specifically undertake to:

- ▶ Conduct operations in compliance with relevant local environment legislations, regulations and licenses;
- ▶ Prevent Pollution and strive for continual improvement of environmental performance through economically viable best practice.
- ▶ Conserve material usage through redesign, reduce, reuse and recycle without compromising product integrity.
- ▶ Achieve optimal energy consumption and waste produced per unit of production
- ▶ Communicate openly and constructively with our team, clients, suppliers and the wider community on the known environmental impacts of our operations.
- ▶ Establish and consistently review environmental objectives and targets
- ▶ Ensure that our team and contractors are aware of this policy.
- ▶ Educate our team and contractors, ensuring the requirement for environmental responsibility is integrated into work practices, training and decision making, and is included in performance assessment.
